VERSE 1: G Gadd11 D C G  
It has been a crazy week...we need a holiday...  
Gadd11 D C G  
And I know of a lovely place...a few light years away...  
Gadd11 D G  
Where icy shards of cloud reflect a colored atmosphere...  
Gadd11 D C G  
Prisms flashing all around a planet called Zjhalyre...

VERSE 2: We'll spend time...climbing down a crater's canyon wall  
The gravity is weak enough it's fun and safe to fall...  
From below, the surface winds...mesmerize the ear...  
They moan and drone and groan upon a planet called Zjhalyre...

BRIDGE: Dsus4 G C G  
Me... you.... We need to be alone...  
Dsus4 G C Cadd9  
Re----new... The love that we have known...(have known, have known, have known...)

VERSE 3: You will see a sunset...but soon as it is gone...  
Turn around and you will find a new day coming on...  
A second sun arising...night does not appear...  
There's never any darkness on a planet called Zjhalyre...
